INTRODUCING THE: Goats Window Ankole Stud

Elite Genetics | Proven Lineage | Uncompromising Quality

Goats Window is proud to unveil the next chapter in our pursuit of excellence: The launch of our Ankole Stud, a curated collection of Southern Africa's most genetically advanced and commercially valuable Ankole.

Every animal in this stud has been hand-selected not only for exceptional length and mass but for their ability to produce future revenue-generating genetics. Our cows are paired with industry-defining sires to ensure that every calf born is a step forward in strength, structure and market value. With a focus on investment-grade breeding, legacy bloodlines and meticulous selection for horn growth, maternal ability and conformation. Our herd reflects the highest standard in commercial Ankole breeding.

This isn't just a stud, it's a statement. A legacy asset for the serious investor, visionary breeder and ethical wildlife custodian.

Uzuri: An over 20-inch horn base for a 2024-born heifer is exceptional, and Uzuri sets a new benchmark. She is truly remarkable; sired by Dyambo and out of Maxsina, whose sire is the legendary Maximus with an impressive 52-inch horn span. This pedigree brings together the elite genetics of BA1, BA3, and BA7. Uzuri is a calm, well-balanced heifer with growth potential of the highest calibre. She represents the pinnacle of maximum horn-base genetics and will add undeniable prestige and royalty to any herd. Her horn grown is 100% from her father. Opportunities like this are incredibly rare. Uzuri measures 22 2/8" horn length and an outstanding 18 6/8" base, with a superb SCI of 82.04.
